

Number Combinations

$$1 + 1 + 1 + 1 + 1 + 1 + 1 = 7$$

$$4 + 1 + 1 + 1 = 7$$

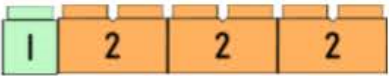

$$1 + 1 + 5 = 7$$

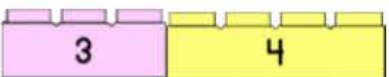

$$1 + 6 = 7$$

$$1 + 2 + 4 = 7$$

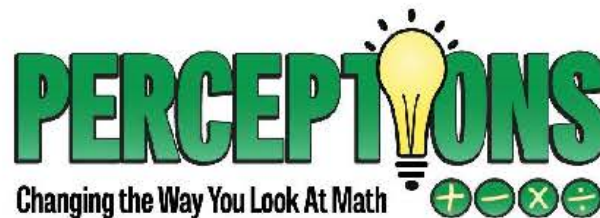

$$1 + 2 + 2 + 2 = 7$$

$$3 + 4 = 7$$

When students can truly see the act of combining (addition) while using manipulatives, it changes the way they think about math!
