

Addition & Subtraction Flash Cards & Games

These flashcards are held in copyright by Perceptions Math. All rights reserved.

These cards may be reproduced for use by one teacher in one classroom.

In this flash card set, you will find *Addition & Subtraction Flash Cards*, *Numeric Answer Cards*, and *Symbols Cards for <, =, and >*.

The file only has black and white cards, so they can be run on any printer. The cards are all one-sided, so there is no need to duplex them.

*** Please Remember** to use card stock in order to have your cards last as long as possible. You will need to make additional copies of the *Symbol Cards* for use in your classroom, so please keep this in mind as you print.

Activities & Games:

- Your students may match the *Addition Cards* with their *Numeric Answers* and the *Subtraction Cards* with their *Numeric Answers*.
- You may play War with either set or a combination of both of the sets.
- You may play a traditional game of Memory. (Please make sure that no more than 5 to 15 matching card sets are out at a time, unless you have advanced students. You do not want to overwhelm your students.)
- Feel free to come up with your own games for your students or allow them to be creative and make up games for themselves.

Should you have any questions, please feel free to contact us!
